The screenshot shows the SUSE Linux Enterprise Server 12 SP1 registration interface. At the top left is the SUSE logo. In the top right corner, there is a button labeled "Network Configuration...". The main heading "Registration" is displayed in green on the left. To the right, the text "SUSE Linux Enterprise Server 12 SP1" is shown. Below this, a paragraph explains that a registration or evaluation code is required for access to security and general software updates. It also notes that if registration is skipped now, it must be done after installation. There are two input fields: "E-mail Address" and "Registration Code". Below these fields is a button labeled "Local Registration Server...". At the bottom center, there is a button labeled "Skip Registration".
